# Report on Activities

## Joint Secretariat Joint Monitoring Committee of CARHRIHL NDFP-Nominated Section May - June 2012

The following were the major activities and accomplished tasks of the NDFP-nominated section in the Joint Secretariat for the period May 1 to June 30, 2012.

### I. Complaints

There were 67 complaint forms received by the Joint Secretariat during the period May 1 to June 30, 2012, 66 of which were against the GRP/GPH while one (1) was against the NDFP.

The new numbered complaint forms brought the total number of submitted complaint forms to 5,265 or an increase of 1.29% over the last period. The total complaint forms against the GPH now constitute 64.6% of all complaint forms or 3,401 while those against the NDFP constitute 35.4% or 1,864 (see Figure 1).

I.A. On the complaint forms submitted against the NDFP

To facilitate understanding of the evolution of the complaint forms submitted against the forces of the NDFP since June 2004, we are incorporating hereunder the entire section on "Summary of Events" in the July-August 2011 report.

#### I.A.1. Summary of Events

The NDFP-Joint Secretariat (NDFP-JS) conducts a form and content study of complaint forms submitted against the NDFP as soon as these are filed with the JMC. The study is forwarded to the NDFP-Monitoring Committee (NDFP-MC) for review and evaluation. The NDFP-MC and NDFP-JS then hold joint consultations (at least once a year) to discuss the study and draft a report for consideration by the NDFP Human Rights Committee (HRC).

In its form and content study, the NDFP-JS

classifies the complaint forms into six general categories formulated by the NDFP-HRC. These are: 1. Duplication (submission of two or multiple complaints for a single incident); 2. Defective (complaints that are invalid in form and content or are lacking in sufficient data or proper documentation which render the allegations practically impossible to investigate and verify); 3. Outside of the Coverage and Scope of CARHRIHL (incidents that occurred before August 7, 1998, effectivity date of CARHRIHL, or complaints that do not qualify as violations of CARHRIHL); 4. False Attribution (violations by the GRP/GPH military and paramilitary units or allegations against criminal armed groups and common crime suspects that are passed off or falsely attributed to the NPA); 5. Reported (allegations that are reported in revolutionary publications or by concerned NPA commands); and, 6. Further Study (complaints that are for further study and investigation by the NDFP-HRC).

In March 2008, the NDFP-MC and the NDFP-JS published their first major report of complaints submitted to the Joint Monitoring Committee, including those against the NDFP, in the pamphlet, A Look into the Complaints Submitted to the Joint Monitoring Committee.

The study revealed that from June 4, 2004 to December 31, 2007, out of 1,791 complaint forms submitted against the NDFP, 152 were duplications; 1,349 were defective in form and content; 42 were outside the coverage or scope of CARHRIHL; 41 were falsely attributed; six (6) were for further study and investigation by the NDFP-HRC; and 201 were reported in revolutionary publications or by concerned NPA commands. Of the 201 reported, 138 were legitimate military operations or armed encounters; 32 were in implementation of the movement's revolutionary justice system; and, 31 were in implementation

of the movement's revolutionary policies on taxation, protection of the environment and promotion of the rights and welfare of workers and peasants.

Thus, of the 1,791 complaints against the forces of the NDFP, 69 appeared to be valid, of which six (6) were for further study and 63 (32 plus 31) were for verification with the concerned organs of the revolutionary movement.

During the September 2008 joint consultations of the NDFP-MC and NDFP-JS, it was decided after review that six (6) complaints previously classified as defective in form and content in March 2008 be considered for further study and investigation by the NDFP-HRC.

In the March 2010 joint consultations, it was decided after review that one (1) of the original six (6) complaints categorized for further study and investigation in March 2008 be included among the 63 for verification by concerned units and organs of the revolutionary movement. It was also decided that of the 13 complaint forms submitted against the NDFP after December 31, 2007 until February 2010 (or for more than two years), only one (1) was for further study and investigation by the NDFP-HRC; two (2) were for verification by concerned units and organs of the revolutionary movement; one (1) was false attribution; and, the rest were considered defective in form and content.

Thus, as of March 2010, the total of what appeared to be valid complaint forms against the NDFP was 78, broken down as follows: 12 for further study and investigation by the NDFP-HRC and 66 for verification by concerned organs of the revolutionary movement.

#### I.A.2. The July 2011 Consultations in Manila

In the joint consultations between the NDFP-MC and the Head of the NDFP-JS in

December 2010 and February 2011, it was decided that the form and content study by the NDFP-JS of complaint forms submitted against the NDFP after April 2010 would be done in the joint consultations between the NDFP-MC and NDFP-JS in July or August 2011 in Manila.

From April 30, 2010 to June 30, 2011, there were 33 complaint forms submitted against the forces of the NDFP: 13 in September-October 2010; five (5) in November-December 2010; two (2) in January-February 2011; eight (8) in March-April 2011; and, five (5) in May-June 2011.

In the July 2011 joint consultations and after reevaluation by the NDFP-MC in August 2011, it was determined that of the 33 complaint forms, three (3) were duplications; two (2) were deemed defective in form and content; 19 were falsely attributed to the NPA; seven (7) were reported in revolutionary publications or by concerned NPA commands [four (4) of which were for verification]; and, two (2) were for further study and investigation. Sixteen (16) of the falsely attributed were filed by PNP Sorsogon – common crimes like family feud, personal grudges and even a karaoke bar brawl shooting that were being attributed to the NPA.

#### I.A.3. Current Situation

The seven (7) complaint forms submitted against the forces of the NDFP during the reporting period of July-August 2011 were not included in the abovementioned 33 complaint forms evaluated in the July 2011 joint consultations. These seven (7) complaints, together with those submitted from September 2011 to the current reporting period of May-June 2012, had already undergone form and content study by the NDFP-JS. They had also been forwarded to the NDFP-MC for review and evaluation.

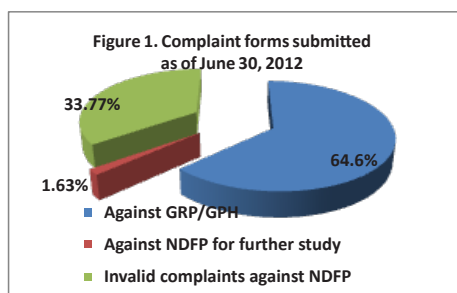

As of the present reporting period, only

84 complaint forms against the NDFP appeared to be valid: 14 for further study and investigation of the NDFP-HRC, and 70 for verification by concerned organs of the revolutionary movement (see Table 1).
